JULY IS NATIONAL MINORITY/BIPOC MENTAL HEALTH AWARENESS MONTH

1 in 4 Americans suffers from a diagnosable mental disorder. Minority populations are less likely to receive diagnosis for their behavioral health issues and have less access to mental health services.

Habitat NCC is committed to diversity, equity, and inclusion (DEI), which includes supporting employee mental health. We understand that people living with mental health problems often experience barriers to care, face discrimination at work and stigma around mental health within their own families. We prioritize mental wellness by providing staff access to mental health benefits, free employee wellness programs, and regularly discussing the importance of mental well-being.
